New York, NY 10021

Dear Josh:

I am enclosing a c.v., as you so kindly requested.

My interest in foreign affairs goes back many years. Technicon as a company did more than 60% of their business outside of the United States.

I have been a member of various trade delegations to the Soviet Union, Hungary, etc.

On an earlier trip to China in 1975, I was part of the University delegation to the United Nations and have been an active participant in several study groups on global issues.

I guess that's enough perjury for this letter.

I can't thank you enough, Josh, for your help.

All the best.

Sincerely,

Edwin C. Whitehead
